FASTENERS

## Bremick Values

### Trust

We take pride in the quality of our products and services through design, development, manufacturing, quality systems, logistics and after sales service to our extensive network of authorised distributors.

### Innovation

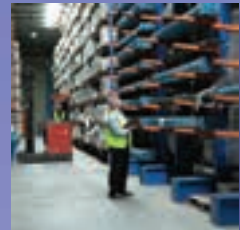

Bremick product development teams are continually monitoring industry trends and end user needs resulting in a constant flow of innovation, bringing real value to consumers and distributors alike.

### Quality

Our quality systems ensure strict conformance to national and international standards through rigorous test and inspection procedures of socket screws throughout our manufacturing processes at the purpose built Bremick NATA Accredited laboratory in Sydney. In addition verification testing of our socket screws is undertaken at independent 3rd party NATA testing laboratories.

### Reliability

Bremick has been the leading Australian fastener supplier for over 45 years with 15 factory warehouses across the Pacific Region, all of which are linked by a centralised computer system, ensuring efficient service and on time delivery to all of our valued customers.

## Company profile

Established in 1965 Bremick Fasteners provides over 45 years experience in the manufacture of high quality fasteners for performance conscious professionals in the manufacturing, automotive, mining, petrochemical and construction industries. Bremick Fasteners is the largest Australian owned and operated fastener organisation with 15 factory warehouses in all major capitals in Australia and New Zealand. Bremick fasteners products are readily available through an extensive network of authorised specialist fastener and engineering distributors covering all geographies in the Asia Pacific Region.

To further support customers who value high quality socket screw products we have again expanded our socket screw offering in both the range of fasteners offered and the depth of stock holdings at all of our local warehouse facilities. To ensure that Bremick socket screws are of the highest quality all socket screw products are subjected to rigorous conformance testing and inspection by the Bremick, NATA accredited, Test and Inspection laboratory in Sydney.

For many years Bremick has successfully supplied fasteners for use in major engineering and manufacturing projects across the Asia Pacific region. We remain conscious of the fact that many of our products are used in highly critical applications, and hold the view that we have a social, as well as a legal responsibility to ensure that the quality of the products supplied can be fully relied upon and are manufactured in accordance with both Australian and International Standards. To ensure all products meet industry standards the company continues to make considerable investment in people, plant and equipment to ensure prompt and reliable delivery of economical high fastener products.

## Socket Screw Range

### Socket Head Cap Screws

**Imperial** - Alloy Steel plain finish and zinc plated  
UNC, UNF & BSW 2g to 1.3/4"

**Metric** - Class 10.9 plain finish and zinc plated  
Metric Coarse & Metric Fine M2 to M42

**Stainless Steel** - Grades 304 & 316  
UNC 10g to 3/4" & Metric Coarse M3 to M16

### Low Head Socket Cap Screws

**Metric** - Class 10.9 plain finish  
Metric Coarse M6 to M16

### Flat Head (Countersunk) Socket Screws

**Imperial** - Alloy Steel plain finish and zinc plated  
UNC, UNF & BSW 1/8" to 1"

**Metric** - Class 10.9 plain finish and zinc plated  
Metric Coarse M3 to M20

**Stainless Steel** - Grades 304 & 316  
UNC 10g to 3/8" and Metric Coarse M5 to M12

### Button Head Socket Screws

**Imperial** - Alloy Steel plain finish  
UNC, UNF & BSW 10g to 5/8"

**Metric** - Class 10.9 plain finish and zinc plated  
Metric Coarse M3 to M16

**Stainless Steel** - Grade 304  
Metric Coarse & Metric Fine M3 to M12

### Socket Head Shoulder Screws

**Imperial** - Alloy Steel plain finish  
UNC & BSW 1/4" to 1" diameters

**Metric** - Class 12.9 plain finish  
Metric Coarse 6mm to 24mm diameters

### Socket Set (Grub) Screws - Cup Point

**Imperial** - Alloy Steel plain finish and zinc plated  
UNC, UNF & BSW 4g to 1. 1/2"

**Metric** - Class 14.9 plain finish and zinc plated  
Metric Coarse M2.5 to M24

**Stainless Steel** - Grade 304  
UNC 8g to 5/16" and Metric Coarse M3 to M12

### Socket Set (Grub) Screws - Knurled Cup Point

**Imperial** - Alloy Steel plain finish  
UNC 6g to 1/2"

**Metric** - Class 14.9 plain finish & zinc plated  
Metric Coarse M3 to M16

## Quality Assurance

The batch history of all Bremick Socket Screws and associated products manufactured in accordance with the relevant Australian and international standards, is maintained by the allocation of a unique job/manufacturing lot coding. The respective job numbers are provided with all socket screw products supplied by Bremick. This Job number gives direct traceability that follows every stage of the manufacturing process from the steel mill to the point of sale. For our customers convenience the job numbers are also displayed on the product packaging.

Prior to delivery to our customers all finish socket screw products are subjected to rigorous inspection and mechanical testing at the Bremick NATA Accredited Test and inspection laboratory in Sydney.

The Bremick quality Department undertakes dimensional and chemical analysis / alloy confirmation testing by X-Ray Fluorescence Spectrometry (XRF) or Arc Spark Spectrometry. This is followed by Rockwell / Vickers Hardness testing together with dimensional and visual inspection.

All test data and inspection records are then accurately archived against the respective job/batch number to facilitate total traceability prior to the release of any socket screws into stock. Any product that does not meet specification is strictly quarantined and will not be allocated to stock.

Once completely satisfied that all criteria has been met the Bremick Quality Manager will release the final product for stock.

Our customers can be assured the all delivered products have been rigorously tested and is fully compliant to the applicable standards.

The Bremick Quality Assurance System is in accordance with ISO/IEC 17025 which is periodically audited by the National Association of Testing Authorities, Australia.

The Bremick Quality Assurance System is in accordance with ISO/IEC 17025 which is audited by NATA

**BREMICK** FLAT HEAD SOCKET SCREWS - METRIC

# SUMMARY OF TRADING TERMS

A full set of our current conditions is available on request

## FIS Delivery

Our company does not pass on the cost of normal freight to customers, providing orders are despatched by our nominated carriers.

## Payment/Credits

Our trading terms are 30 days from statement date. Consignment stock is not available.

Returns for credit are subject to prior approval and allocation of an acceptance number, without which our warehouse is directed not to receive them. Receipt of goods in this way does not imply agreement to issue a credit note.

Approval of credit can only be considered if the request for credit in writing is received (within 14 days of receipt of goods) showing the credit acceptance number, original invoice number, date and reason for return.

No freight charges for return of goods shall be accepted unless authorised by Bremick.

Products which have been reworked, specially manufactured or zinc plated cannot be returned.

## List s

All s are Industrial List, current at the time of printing and adopted by leading suppliers and distributors. Relevant trade discounts apply. Tax is not included. All care but no responsibility is taken.

## Fixed Term Pricing

Some end users request firm (eg, 12 month contract) pricing arrangements. We receive no guarantees in relation to our costs. Increases usually occur without advance notice, resulting from currency fluctuation and in reaction to raw material costs and worldwide demand. Hence we cannot make fixed longterm undertakings to distributors and do not recommend they do so to end users. However, we can advise anticipated trends resulting from recent changes in our own costs.

We are unable to commit to a fixed period of prior advice of upcoming changes (detailed written explanation available on request) but have always worked closely with specialist merchant distributors.

## Disclaimer

- This document is published and distributed to provide general guidelines on products.
- Bremick Pty Ltd hereby advise the users of products contained herein to make their own enquiries of individual respective manufacturers in respect of the particular specific applications which those users propose for these products.
- Bremick Pty Ltd takes no responsibility at all for the use or misuse of those products in any way.

## Romalpa Clause

1. Notwithstanding anything in these Conditions of Sale contained, expressed or implied or incorporated herein by reference and notwithstanding any rule of law or equity to the contrary and notwithstanding any course of dealing between the Company and the Purchaser, property in goods shall not pass from the Company to the Purchaser unless and until –
  - (a) Such goods have been delivered in accordance with these conditions and
  - (b) The Purchaser shall have made payment in full for such goods (“the goods”) and
  - (c) The Purchaser shall have fully discharged all their indebtedness and other liability (if any) of the Purchaser to the Company on whatsoever account. The Purchaser shall, notwithstanding the foregoing, be empowered as the agent of the Company to sell the goods and shall hold the proceeds of such sale upon trust to apply the same, firstly in payment or otherwise discharging the payable to the Company for such goods and any other costs of carriage or insurance or other costs or expenses borne by the Company in respect thereof; secondly, in paying or otherwise discharging all the other indebtedness or liability (if any) of the Purchaser to the Company on whatsoever account, which is outstanding at the date that the Purchaser receives such proceeds of sale; thirdly, as to any balance, for the Purchaser’s own use and benefit. Pending the passing of title to the goods the Company may require the Purchaser to mark the goods as being the property of the Company.
